Relevant Experience

iOS Developer / Founder at doisdoisete. - 08/2014 – 12/2016

Doisdoisete is a startup that germinates its own ideas into startups. We developed our own ideas as well as partnerships with companies and other startups. I participated in every step of the process, since the conception of the idea, design thinking, canvas, prototyping e validation. And also responsible for the developing for iOS.

iOS Developer / Co-owner at pactodigital. - 10/2012 – 08/2014

Pactodigital was a software development and content provider company. I was responsible for iOS Development and managed the developers team. I was the only developer or lead developer at over 20 projects for clients of different areas and sizes, incluindo Itaú BBA (investment bank), Deloitte, iG (content provider) and also some promising startups.

iOS iOS / Freelancer - 2014 – present

Participated in several projects as freelancer. Brazilian and foreigner clients. It has been a great opportunity to learn home-office skills, such as time management and discipline.

Education

Graduated in Economics at Insper-BR - 2010

Weekend course - Programming 101 and iOS programming at iAi? - 2011

Autodidact OOP, Objective-C, iOS, Swift - 2012-present
